The Trace Creek school is progressing nicely under the management of Andrew Simkard.

Mrs. W. W. Fletcher is recovering from an attack of the grippe.

Virgil Parsons is still quite poorly with rheumatic fever.

Mrs. Noah Myers is still in poor health.

We will be glad to see the second Saturday and Sunday come and hope it will be pretty weather so our past. Rev. Wigger, can attend and would be much pleased to have Rev. Abernathy with us again at New Trace creek for we all enjoy hearing such speakers as Revs. Wigger and Abernathy.

Busy One.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is to remove or improve the condition of the inner lining of the Mastoid Tube. When this tube is inflamed you have a condition called Deafness. This tube is closed and when it is closed, Deafness is the result, and unless this tube restored to its normal condition, hearing is lost and can never be restored. Deafness is nothing but an inflamed condition of the mastoid surface.

We will give one hundred Dollars for any case of Deafness caused by earache that cannot be cured by Hall's Catarrh Cure.
